

Fred Hackney, M.D.

Plastic Surgery

For Dr. Fred Hackney, quick fixes don't get put ahead of proven results.

"My patients are perceptive enough to know that if it sounds too good to be true, it probably is," Dr. Hackney says. "There is always the latest and greatest cosmetic operation promising amazing and quick results with no downtime. While some new procedures stand the test of time, many do not." It takes a plastic surgeon with experience and good judgment to know the difference. That's one of the reasons Dr. Hackney has been named a Best Doctor in D Magazine for four consecutive years.

Dr. Fred Hackney brings dreams to life for his patients. Self-confidence, beauty, and a healthy lifestyle are evident in each satisfied patient. Meet his actual patients enjoying their new image in everyday life at drhackney.net. Here, you can read real patients' stories in their own words. They share their thoughts about their decision to have cosmetic surgery, why they picked Dr. Hackney, and how they felt about their results after surgery.

Dr. Hackney is board certified in plastic surgery and has earned the certificate of Advanced Education in Cosmetic Surgery from the American Society of Aesthetic Plastic Surgery. He received his medical education at some of the country's leading medical institutions. He has helped write plastic surgery textbooks and has lectured both nationally and internationally to other plastic surgeons.

While Dr. Hackney frequently performs breast augmentations, he specializes in other cosmetic procedures such as tummy tucks, liposuction, and facial procedures. Visit drhackney.net to see online video of Dr. Hackney explaining the most common procedures.
